

## Developmental Progress Assessment Report

**Date of Visit:** 24-11-2025

**Child's Name:** Ibrahim-Nauwaf Alshammari

**Date of Birth:** 06-12-2010

**Age:** 179 months

**Gender:** M

**Guardian:** Nauwaf

## Overview

Ibrahim was evaluated at **Ostathna** for his developmental and cognitive profile. The assessment indicates **information processing delays** and **intellectual developmental delays**, which have resulted in **speech delays** and **acquired features of autism**.

EICADD

## Recommended Plan

### 1. Development Protocol for Information Processing

- Continue the protocol for **4 months**, followed by a comprehensive reevaluation (preferably in person).
- Reevaluate the child's progress and establish an updated developmental baseline.
- Continue with intervention sessions consistently throughout this period.

### 2. Recommended Tests Through Neurazon (Canada)

These assessments help identify biochemical, epigenetic, and metabolic factors affecting development.

### 3. Recommended Therapy

- **Plasticity Rehabilitation Therapy / Occupational Therapy**
  - **Intensive therapy recommended** as soon as possible.
  - Focus on improving information processing, cognitive development, speech, and adaptive behavior.

All laboratory analyses are conducted through **Neurazon (Canada)**, a bioinformatics company partnered with certified international laboratories.

These tests are **external, optional, and not performed directly through Ostathna.**

Please refer to the Neurazon plan for full details regarding laboratory processing, timelines, and shipping instructions.

This assessment is **not a final diagnosis**, but a developmental evaluation based on current observations.

The child is open to improvement, and findings may evolve with therapy and maturation.

Recommended tests are external suggestions intended to deepen understanding of the child's biological profile.

This report is **valid for 4 months** from the date of assessment.

#### Centers' Leading Staff:

**Speech Therapist:** Ms. Amira Alomari

**Occupational Therapist:** Ms. Malak Jaber

**Psychologist and behaviour therapist (Ajman):** Ms. Asmaa Alshanawi
