

Director's Report on Developmental Progress Assessment

Date of Visit: 28-06-2025

Child's Name: Marya Ali Alassaf

Date of Birth: 01-01-2014

Age: 11 years

Gender: Female

Guardian: Ali

Overview:

Marya was assessed at our center and presents with **information processing delays** and **intellectual developmental delays**, which have led to **acquired features of autism**. These are not fixed traits and may improve significantly with targeted intervention. Further investigation is necessary to clarify the underlying contributors and personalize her care.

Recommended Plan:

- 1. Development Protocol for Information Processing**
 - To be implemented over 4 months
 - In-person reassessment recommended
 - Establish baseline development and adapt the plan as needed
- 2. Recommended Tests (through Neurazon – Canada):**

Please refer to their report and assessment. These tests are not done at EICADD.

- 3. Recommended Therapy (Following Next Evaluation):**
 - Depending on her progress, **mitotherapy** and **neuroplasticity therapy** may be recommended after the 4-month review

Centers' Leading Staff:

Speech Therapist: Ms. Amira Alomari

Occupational Therapist: Ms. Malak Jaber

Psychologist and behaviour therapist (Ajman): Ms. Asmaa Alshanawi
