

EICADD Center Ajman

Director's Report on Developmental Progress Assessment

Date of Visit: 08-10-2025

Child's Name: Farouq Kareem Gad

Date of Birth: 14-09-2019

Gender: Male

Guardian: Kareem

Overview:

Farouq visited our center for a developmental progress assessment. The evaluation indicated **information processing delays** and **global developmental delays** that have led to **hyperlexia closer to Hyperlexia 2**, presenting as **acquired features of high-functioning autism**.

In addition, Farouq exhibits **social and behavioural delays**. A **previous risk of epileptic episodes was reported but has been successfully resolved with medication**. Ongoing monitoring is advised to ensure that no recurrence develops. Further analyses are recommended to gain a deeper understanding of contributing factors.

EICADD

Recommended Plan:

1) Development Protocol for Information Processing

- Implement the protocol for **4 months**, after which Farouq should be **re-evaluated in person**.
- Re-establish a **baseline** during the follow-up visit.
- Continue the **intervention plan** consistently to maintain progress.

2) Recommended Tests through Neurazon (Canada)

*The recommended tests are conducted through **Neurazon (Canada)**, a bioinformatics company partnered with certified laboratories worldwide. Please refer to the plan provided by Neurazon for further information. These tests are recommendations and not obligatory, and they are **not conducted directly through our center**.*

3) Recommended Therapy:

- **Plasticity rehabilitation therapy: Intensive program.**
- **Occupational Therapy & Speech Therapy: 2 sessions per week each.**

Conclusion:

This assessment is **not a final diagnosis** but reflects the child's **current developmental profile**. Farouq is **capable of improvement**, and findings may change as he responds to consistent interventions.

Disclaimer:

This report remains **active for 4 months** from the date of assessment. The recommended tests are **external suggestions only** and not obligatory; they are offered to provide further insight into Farouq's health and development profile.

This report is valid for 4 months from the date of assessment.
