

## **Director's Report on Developmental Progress Assessment**

**Date of Visit:** 28-06-2025

**Child's Name:** Jana Eid

**Date of Birth:** 01-01-2016

**Age:** 9 years

**Gender:** Female

**Guardian:** Eid

### **Overview:**

Jana was assessed at our center and presents with **information processing delays, global developmental delays and intellectual developmental delays**, which have led to **acquired features of autism but doesn't score as a case of autism**. These features are developmental in nature and may be improved through personalized intervention. Further analysis is recommended to better understand the underlying causes.

### **Recommended Plan:**

#### **1) Development Protocol for Information Processing:**

- Begin a structured protocol focused on improving cognitive and sensory processing.
- Implement the intervention over **4 months**.
- Reevaluate in person after this period to measure progress and adjust the plan as needed.
- Establish a baseline for further tailored interventions.

#### **2) Recommended Tests through Neurazon (Canada):**

- Please refer to their report and assessment.

#### **3) Recommended Therapy:**

- **Neuroplasticity Therapy (Intensive):**
  - To enhance brain connectivity and function through targeted neurological training.
- **Mitotherapy:**
  - Light-based or mitochondrial support therapy to boost cellular energy and cognitive performance.
- **Speech and Occupational Therapy:**
  - To support language development, fine motor skills, executive function, and adaptive behavior.
  - Frequency to be determined by therapist evaluation.

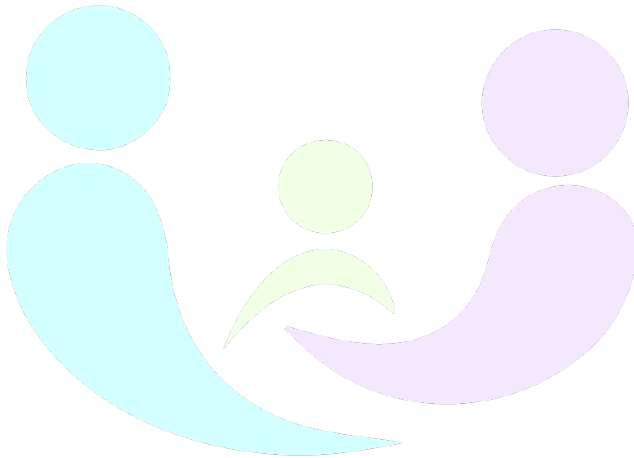

**Centers' Leading Staff:**

**Speech Therapist:** Ms. Amira Alomari

**Occupational Therapist:** Ms. Malak Jaber

**Psychologist and behaviour therapist (Ajman):** Ms. Asmaa Alshanawi

**EICADD Center Director**

**EICADD**
