

Director's Report on Developmental Progress Assessment

Date of Visit: 22-06-2025

Child's Name: Shahm-Ahmed Aburuman

Date of Birth: 02-04-2022

Overview:

Shahm was assessed at our center following concerns regarding his early developmental progress. The evaluation revealed **information processing delays**, **developmental delays**, and emerging signs of **hyperlexia**, with patterns more consistent with **Hyperlexia Type 3** than Type 2, though not fully meeting the criteria yet. These findings suggest atypical cognitive development and warrant further evaluation to clarify the underlying causes and support timely intervention.

Recommended Plan:

1. Development Protocol for Information Processing:

- Initiate a tailored development protocol focusing on cognitive and processing skills for **4 months**.
- A **reassessment is advised after 4 months**, preferably in person.
- This period should be used to monitor progress and establish a developmental baseline.

2. Recommended Tests through Neurazon (Canada):

Please refer to the plan provided by Neurazon for further information. Please note that these are recommendations and not obligatory, and they are not conducted through our centers directly.

3. Recommended Therapy After Determining the Causes:

- **Speech Therapy (ST):** 2 sessions per week
- **Occupational Therapy (OT):** 2 sessions per week
- **Mitotherapy (Light Therapy):** 2 sessions per week

Disclaimer:

This assessment is not a final medical diagnosis but a developmental evaluation based on current observations. The child is open to improvement, and the findings may change with progress and intervention. The recommended tests are external and provided through Neurazon (Canada). These are suggestions, not obligatory, and are intended to support a deeper understanding of the child's developmental profile. Please refer to the plan provided by Neurazon for further information. These tests are not conducted directly through our center.

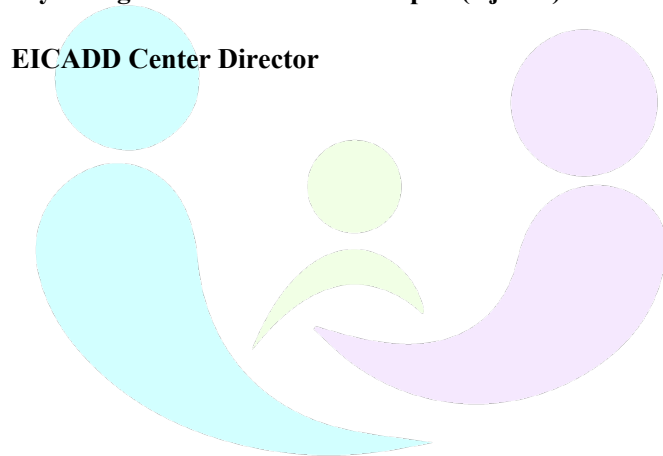

Centers' Leading Staff:

Speech Therapist: Ms. Amira Alomari

Occupational Therapist: Ms. Malak Jaber

Psychologist and behaviour therapist (Ajman): Ms. Asmaa Alshanawi
