

## Director's Report on Developmental Progress Assessment

**Date of Visit:** 09-07-2025

**Child's Name:** Abdalrahman Al Fadel

**Date of Birth:** 12-04-2019

**Gender:** Male

**Guardian Name:** Abdallah

### Overview:

Abdalrahman was assessed at our center and has shown **significant improvement** following the initial intervention phase. Despite this progress, the child continues to experience **information processing delays** and **developmental delays** that have led to **acquired features of autism**, which appear to be linked to identified genetic variants. A continuation of a targeted intervention plan and further analysis are essential to guide the next steps in supporting the child's development.

### Recommended Plan:

1. **Development Protocol (Non-Medicinal) for Information Processing:**
  - Apply for 4–6 months, then reevaluate the child (preferably in person)
  - Establish a new developmental and cognitive baseline
  - Continue with the updated intervention plan
2. **Recommended Laboratory Analysis (via Neurazon – Canada):**
  - Please refer to their report and assessment. These tests are not done at EICADD.
3. **Recommended Therapy:**
  - **Neuroplasticity Rehabilitation Therapy**
    - Frequency: 2–3 sessions per week
    - Start: Preferably **after one month** of implementing this updated protocol
    - Objective: To enhance cognitive processing and promote neurodevelopmental recovery

**Disclaimer:**

This assessment is not a final diagnosis but a developmental evaluation based on current observations. The child is open to improvement, and the findings may change with progress and intervention. The recommended tests are external and provided through Neurazon (Canada). These are suggestions, not obligations, and are intended to support a deeper understanding of the child's developmental profile. Please refer to the plan provided by Neurazon for further information. These tests are not conducted directly through our center.

**Signature:**

EICADD Center Ajman Director

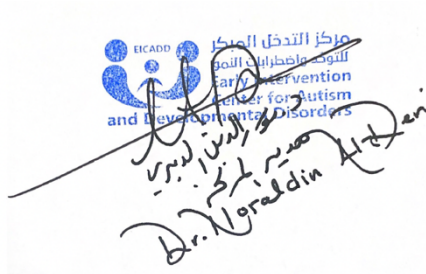

**Speech Therapist:** Ms. Amira Alomari

**Occupational Therapist:** Ms. Malak Jaber

**Psychologist and behaviour therapist (Ajman):** Ms. Asmaa Alshanawi

**EICADD Center Director**

**EICADD**

A handwritten signature in black ink, reading "Dr. Noraldin Alshani", is written over a blue stamp. The stamp contains the EICADD logo and the text "مركز التدخل المبكر للتوحد واضطرابات النمو Early Intervention Center for Autism and Developmental Disorders".
