

## EICADD Center Ajman

### Developmental Progress Assessment Report

**Date of Visit:** 23-11-2025

**Child's Name:** tym ounallah

**Date of Birth:** 2023-04-21

**Gender:** Male

**Guardian:** mohammad

#### Overview

Tym visited our center for a developmental progress assessment. The child has **improved greatly on the first protocol**, and many of the previous symptoms have been **fully resolved**. Based on the evaluation, Tym presents with a **simple developmental delay** and **does not score as a case of autism**, nor does he present with features of **ADHD or ADD**. His responsiveness to intervention indicates a **very high potential for continued improvement**.

This report reflects a developmental evaluation based on current observations and progress to date.

#### Recommended Plan

##### 1. Development Protocol for Information Processing

- Continue the processing protocol for **4 months**, followed by reevaluation **preferably in person**.
- Reevaluate the plan after 4 months and establish a new **baseline**.
- Complete all scheduled therapy sessions to support cognitive and developmental progress.

##### 2. Main Recommended Analysis (Through Neurazon – Canada)

**These analyses are external, optional, and performed exclusively through Neurazon (Canada), a bioinformatics company partnered with accredited international laboratories.**

##### 3. Recommended Therapy

###### A. Rehabilitation Therapy

- **Plasticity Therapy / Occupational Therapy (OT):** Intensive sessions recommended.
- **Occupational Therapy (OT) and Speech Therapy (ST)** should continue according to the structured plan established for Tym.

### Notes on External Testing

All recommended tests are performed **only through Neurazon (Canada)**. These are **recommendations**, not requirements. The purpose is to further understand biological contributors to the child's development.

### Conclusion

This is **not a final diagnosis**, but a developmental assessment based on current findings. Tym shows **significant improvement**, and with continued therapy and structured support, further progress is expected.

### Disclaimer

This assessment is valid for **4 months** from the date of evaluation.

Developmental findings may change with growth and therapy.

All recommended tests are external, optional, and processed exclusively through **Neurazon (Canada)**.

### Centers' Leading Staff:
