

**Date of Visit:** 04-06-2025

**Child's Name:** Faisal Bander Kaki

**Date of Birth:** 2019-12-20

**Age:** 65 months (5 years and 5 months)

**Gender:** Male

**Guardian:** Bander

---

**Assessment Summary:**

Faisal was assessed for developmental concerns and was found to have information processing delays. However, the evaluation did not indicate a diagnosis of autism, ADHD/ADD, or any learning difficulties at this time. Further analysis is recommended to better understand the underlying factors and to create a targeted intervention plan.

---

**Recommended Plan:**

1. **Development Protocol for Information Processing**
  - Implement the protocol for 4 months.
  - After this period, a comprehensive in-person reevaluation will be conducted to establish a baseline and update the intervention plan as needed.
  - Continue with the intervention plan based on the outcomes of the reevaluation.
2. **Recommended Tests for Later Stages (based on next evaluation):**

**Disclaimer:** Please refer to their report. This test is external and conducted through Neurazon (Canada). It is not obligatory and is not performed directly through our center. It is recommended as a supportive measure for a deeper understanding of the child's profile

3. **Recommended Therapy after Analysis:**
  - Intensive neuroplasticity rehabilitation therapy to start as soon as possible, tailored to the findings of the recommended tests and the child's progress.

**Disclaimer:**

This assessment is not a final medical diagnosis but a developmental evaluation based on current observations. The child is open to improvement, and the findings may change with progress and intervention. The recommended tests are external and provided through Neurazon (Canada). These are suggestions, not obligatory, and are intended to support a deeper understanding of the child's developmental profile. Please refer to the plan provided by Neurazon for further information. These tests are not conducted directly through our center.

**Centers' Leading Staff:**

**Speech Therapist:** Ms. Amira Alomari

**Occupational Therapist:** Ms. Malak Jaber

**Psychologist and behaviour therapist (Ajman):** Ms. Asmaa Alshanawi

**EICADD Center Director**

**EICADD**
