

Date of Assessment: 30-06-2025

Child's Name: Ali Alghabesh

Date of Birth: 21-06-2021

Age: 4 years and 0 months

Gender: Male

Guardian: Hussein

Assessment Summary:

This is the **second assessment** for Ali Alghabesh at our center. Compared to the previous evaluation, the child has **improved greatly** in various developmental domains. However, current observations still indicate **information processing delays** and **developmental delays**, which have previously contributed to **acquired features of autism**.

Following the **Precision Health Analysis conducted by Neurazon**, the delays appear to be linked to **mitochondrial variants and other physiological findings**, rather than a primary autism diagnosis. The child continues to present with developmental challenges, but he **does not meet the criteria for Autism Spectrum Disorder (ASD)**.

Recommended Plan:

1) Development Protocol for Information Processing:

- Continue with the personalized developmental protocol for an additional **4 months**.
- Reevaluate the child **in person** at the end of this period.
- Establish a new baseline reflecting current progress and adapt the intervention plan as needed.

Other Recommendations:

1) Recommended Tests (Upon Next Evaluation):

Please refer to their report and assessment.

2) Recommended Therapy:

- **Neuroplasticity Therapy (Intensive):**
 - To be started **as soon as possible**
 - Aimed at strengthening brain connectivity and functional adaptation

Disclaimer:

This document reflects a developmental assessment and not a final diagnosis. The child's case remains open for improvement and re-evaluation. The recommendations serve as a proactive plan to better understand and support Zaid's development. All recommended tests are offered externally through Neurazon (Canada) and are **not obligatory**, but advised for clearer insight. Please refer to the Neurazon protocol for further guidance.

Centers' Leading Staff:

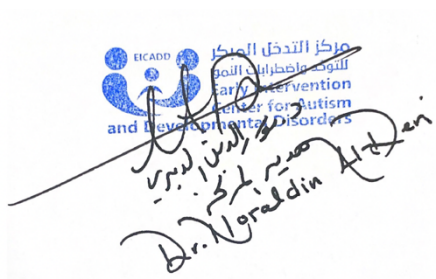

Speech Therapist: Ms. Amira Alomari

Occupational Therapist: Ms. Malak Jaber

Psychologist and behaviour therapist (Ajman): Ms. Asmaa Alshanawi

EICADD Center Director

EICADD

A handwritten signature in black ink, reading "Dr. Noraldin Al-Dan", is written over a blue circular stamp. The stamp contains the EICADD logo and the text "مركز التدخل المبكر للتوحد واضطرابات النمو Early Intervention Center for Autism and Developmental Disorders".
