

EICADD Center Ajman

Director's Report on Developmental Progress Assessment

Date of Visit: 11-06-2025

Child's Name: Hamdan Mohammed AlKhaifi

Date of Birth: 2014-05-12

Overview:

Hamdan Mohammed AlKhaifi visited our center on 11-06-2025 for a developmental progress assessment. The evaluation revealed that Hamdan has information processing delays, cognitive developmental delays, learning difficulties, and global developmental delays. Minimal acquired features of autism were observed, but he does not meet the diagnostic criteria for autism. Additional analysis is needed to fully understand the underlying causes and tailor a comprehensive support plan for his developmental needs.

Recommended Plan:

1. Development Protocol for Information Processing:

- Initiate a 4-month structured intervention protocol to target Hamdan's information processing and cognitive challenges.
- After 4 months, conduct an in-person reassessment to establish a new baseline and adjust the intervention plan as necessary.
- Continue with the refined intervention plan based on progress.

2. Recommended Tests (through Neurazon, Canada):

Please refer to their report and assessment.

3. Recommended Therapy (post analysis):

- Begin intensive neuroplasticity rehabilitation therapy as soon as possible to address Hamdan's information processing and cognitive development needs.

Disclaimer:

This assessment is not a final diagnosis but a developmental evaluation based on current observations and progress. Ahmed is open to improvement, and the findings may change with further interventions. The recommended tests and therapies are external and offered through Neurazon (Canada). These are suggestions, not obligatory, and are intended to support a deeper understanding of the child's developmental profile. Please refer to the plan provided by Neurazon for further information. These tests are not conducted directly through our center.

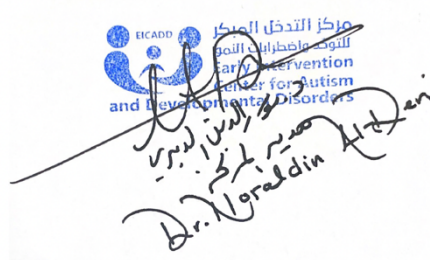

Centers' Leading Staff:

Speech Therapist: Ms. Amira Alomari

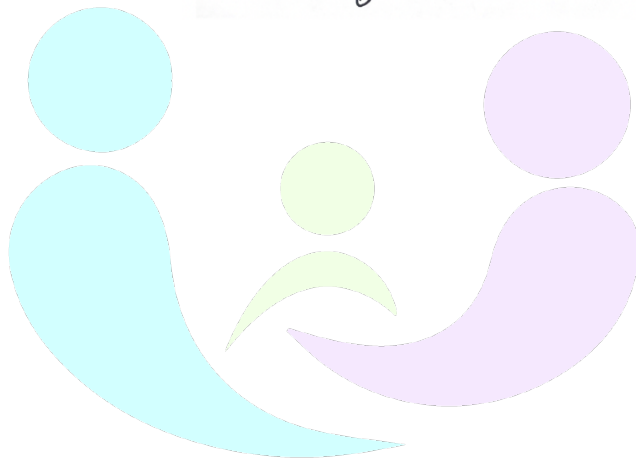

Occupational Therapist: Ms. Malak Jaber

Psychologist and behaviour therapist (Ajman): Ms. Asmaa Alshanawi
