

Director's Report on Developmental Progress Assessment

Date of Visit: 30-11-2021

Child's Name: Hanan Mohamad Alkhawaldeh

Date of Birth: 30-11-2021

Age: 3 years

Gender: Female

Guardian: Mohamad

Overview:

Hanan was assessed at our center and presents with **information processing delays** and **developmental delays**, which have led to **minimal acquired features of autism**. However, the child does **not score as a case of autism**. Notable **learning difficulties** were observed, which require further analysis and tailored intervention to support her developmental progress.

Recommended Plan:

1. Development Protocol for Information Processing

- Implement over 4 months
- In-person reassessment recommended after intervention phase
- Establish a developmental baseline and adjust as necessary

2. Recommended Tests (through Neurazon – Canada):

Please refer to their report and own assessment. These tests are not done at EICADD.

3. Recommended Therapy:

- **Mitotherapy:** 1–2 light therapy sessions per week
- **Speech Therapy (ST):** 2 sessions per week
- **Occupational Therapy (OT):** 1–2 sessions per week

Centers' Leading Staff:

Speech Therapist: Ms. Amira Alomari

Occupational Therapist: Ms. Malak Jaber

Psychologist and behaviour therapist (Ajman): Ms. Asmaa Alshanawi

EICADD Center Director

Dr. Nopaldin
