

Director's Report on Developmental Progress Assessment

Date of Visit: 16-08-2025

Child's Name: Lamar-A Alkamees

Date of Birth: 12-09-2020

Sex: Female

Guardian: Ahmed

Overview

Lamar was assessed in person at our center. Findings indicate **information processing delays** and **developmental delays** leading to **acquired features of autism**. The child is open to improvement. **Further assessment** is recommended to refine the intervention plan and identify contributing factors.

Recommended Plan

1. Development Non-medicinal Protocol for Information Processing

- Implement for **4 months**, then reassess in person.
- Reevaluate the plan and establish a clear baseline.
- Continue and adjust the intervention according to progress.

2. Main Recommended Analyses (through Neurazon, Canada)

Recommended Tests through Neurazon (Canada): Please refer to the plan provided by Neurazon for further information. Please note that these are recommendations and not obligatory, and they are not conducted through our centers directly.

3. Recommended Therapy

- **Neuroplasticity rehabilitation therapy:** intensive program, **to start in later stages** when appropriate.

Disclaimer

This assessment is **not a final diagnosis** but a developmental evaluation based on current observations. The child is open to improvement, and the findings may change with progress and intervention. The recommended tests are external and provided through **Neurazon (Canada)**. These are suggestions, not obligatory, and are intended to support a deeper understanding of the child's developmental profile. Please refer to the plan provided by Neurazon for further information. These tests are **not conducted directly through our center**.
