Director's Report on Developmental Progress Assessment

Date of Visit: 11-03-2025

Child's Name: ARAM AMIN HAJI

Date of Birth: 11-03-2021

Overview

During the evaluation, Aram presented with **information processing delays** and **developmental delays** that have contributed to a diagnosis of **social communication disorder**. These findings indicate challenges in understanding, processing, and expressing information in a social and developmental context. At this stage, additional assessments and further testing are recommended to better understand the underlying causes and to create a more comprehensive intervention plan.

Recommended Plan

1. Development Protocol for Information Processing

- Implement a tailored protocol focusing on improving information processing abilities.
- Duration: **4 months**, after which the child should be reassessed, preferably in person.
- Establish a developmental baseline and adjust the plan accordingly.
- Continue with the intervention plan after reassessment.

2. Main Recommended Analyses (through Neurazon – Canada):

- **Please refer tot their report and assessment. These analyses are not done at EICADD.**

3. Therapy Recommendations

- **Neuroplasticity Rehabilitation Therapy**
 - Frequency: **2–3 sessions per week**
 - Suggested to begin after 2–3 months to allow baseline establishment and readiness.

Disclaimer

This assessment is not a final diagnosis but a developmental evaluation based on current observations. The child is open to improvement, and the findings may change with progress and intervention. The recommended tests are external and provided through **Neurazon (Canada)**. These are **suggestions, not obligatory**, and are intended to support a deeper understanding of the child's developmental profile. Please refer to the plan provided by Neurazon for further information. These tests are not conducted directly through our center.

Centers' Leading Staff:

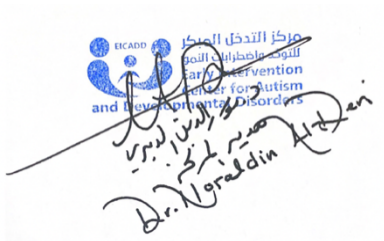

Speech Therapist: Ms. Amira Alomari

Occupational Therapist: Ms. Malak Jaber

Psychologist and behaviour therapist (Ajman): Ms. Asmaa Alshanawi
