

## Director's Report on Developmental Progress Assessment

**Date of Visit:** 23-06-2025

**Child's Name:** Abdulrahman Yasar Khalad

**Date of Birth:** 06-01-2008

### Overview:

Abdulrahman was assessed at our center following concerns regarding his neurodevelopment. The evaluation indicated **information processing delays** and **regressive cognitive developmental delays**, contributing to **acquired features of autism**. While this does not reflect a classical autism diagnosis, the profile shows patterns that require attention and individualized support. Further assessment is strongly recommended to determine the underlying causes and best therapeutic course.

### Recommended Plan:

#### 1. Development Protocol for Information Processing:

- Begin a structured development protocol targeting processing abilities over the next **4 months**.
- **Reevaluate** the child in person after this period to monitor improvement and refine the intervention.
- **Establish a baseline** during this timeframe and adjust the approach accordingly.

#### 2. Recommended Tests through Neurazon (Canada):

*Please refer to the **plan** provided by Neurazon for further information. Please note that these are recommendations and not obligatory, and they are not conducted through our centers directly.*

#### 3. Recommended Therapy After Determining the Causes:

- **Neuroplasticity rehabilitation therapy**, to be initiated **in Jordan** once available, to support cognitive recovery and developmental enhancement.

### Disclaimer:

This assessment is not a final medical diagnosis but a developmental evaluation based on current observations. The child is open to improvement, and the findings may change with progress and intervention. The recommended tests are external and provided through Neurazon (Canada). These are suggestions, not obligatory, and are intended to support a deeper understanding of the child's developmental profile. Please refer to the plan provided by Neurazon for further information. These tests are not conducted directly through our center.

**Centers' Leading Staff:**

**Speech Therapist:** Ms. Amira Alomari

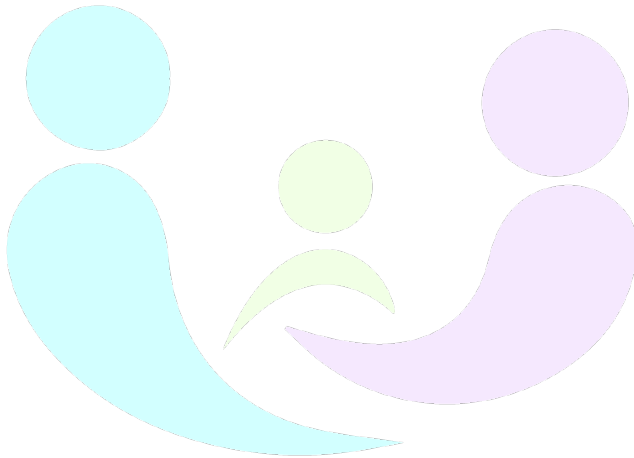

**Occupational Therapist:** Ms. Malak Jaber

**Psychologist and behaviour therapist (Ajman):** Ms. Asmaa Alshanawi

**EICADD Center Director**

Dr. Ngeraddin Al-Den
