

Developmental Progress Assessment Report

Date of Visit: 28-09-2025

Child's Name: Yousef Amid Jazzar

Date of Birth: 16-01-2020

Age: 5 years, 8 months

Gender: Male

Guardian: Amid

Overview

Yousef Amid Jazzar visited for a developmental progress assessment.

The assessment showed that **the child has information-processing delays and developmental delays leading to hyperlexia between 2 and 3, closer to hyperlexia 2 (acquired features of high-functioning autism) but not fully yet there.**

The child **needs further analyses** to better understand underlying biomedical and developmental factors.

Recommended Plan

1) Development Protocol for the Information Processing

- For **4 months** then we reevaluate the child, preferably in person.
- **Reevaluate the plan** and establish a baseline.
- Continue with the **intervention plan**.

2) Recommended Tests through Neurazon Canada

The recommended tests are **conducted through Neurazon (Canada), a bioinformatics company partnered with certified laboratories worldwide.**

Please note that these are **recommendations and not obligatory**, and they are **not conducted through our centers directly.**

3) Recommended Therapy

- **OT – Plasticity Rehabilitation Therapy:** intensive to start as soon as possible.
- **Speech and Occupational Therapy:** 2 ST and 2 OT sessions per week.

Conclusion

Yousef's profile highlights the importance of **timely and intensive intervention**.
The recommended plan combining the **4-month development protocol, therapies, and external analyses** is expected to support improvements in **language comprehension, information processing, and adaptive functioning**.

Disclaimer

This assessment is **not a final diagnosis but a developmental evaluation based on current observations**.

The child is **open to improvement**, and the findings may change with progress and intervention.
The recommended tests are **external and provided through Neurazon (Canada)**.

These are **suggestions, not obligatory**, and are intended to support a deeper understanding of the child's developmental profile.

Please refer to the plan provided by Neurazon for further information.

These tests are **not conducted directly through our center**.

This report is **valid for 4 months from the date of assessment**.

This report is valid for 4 months from the date of assessment.
