

Homeopathy Plan- General

Additional Step

Notes:

- This is the second step of the protocols which is considered general until further analysis
- These supplements are safe, natural and are not drugs or medicinal
- A personalized plan will be put in 4 months after a reassessment and according to the child improvement and tests
- Make sure you arrange a reassessment in advance to avoid waiting too long for an appointment
- In case, of any suspected side effects, please stop the natural supplements immediately and contact a physician directly

	Item name	Ingredient	Purpose	Quantity	Duration	Details
1	Doctor's Best, Phosphatidyl Serine, 100 mg, 120 Veggie Caps	Phosphatidylserine	White matter Development	Capsule every day mornings. Dissolve in water, juice, honey	3 months	Can be purchased from iherb
2	Jarrow Formulas, Citicoline, CDP Choline, 250 mg, 120 Capsules	Alpha Lipoic Acid	White matter Development	Capsule every other day mornings. Dissolve in water, juice, honey	3 months	Can be purchased from iherb

ADDITIONAL INFORMATION

- A revaluation is needed to reassess the development on the Ai
- Start the second step of the protocol after three months
- This assessment was developed, and its performance was validated, by the Ai model of NEURAZON and according to the findings in the report attached. The US Food and Drug Administration (FDA) has determined that clearance or approval of this method is not necessary and thus neither have been obtained. This test has been developed for research purposes. All test results are reviewed, interpreted and reported by our scientific experts.
- The provided recommendations include safe, non-drug, and natural treatments that are not a substitute for rehabilitation and training sessions. These recommendations should be followed under the supervision of a specialist. Improvement depends on the child, the underlying causes, and their response, with recommendations adjusted based on periodic tests and evaluations every three months. If any allergic symptoms appear, treatment should be stopped immediately, and the specialist should be informed to adjust the treatment plan.
- This assessment is not a substitute for a medical assessment by a healthcare professional at a medical clinic. Please note, that this plan has been designed by our team of scientists, but we advise you to contact a physician as well to have a more holistic approach

Assessment: The child improved greatly on the protocol. He currently has developmental delays acquired features of autism due to variants found affecting brain development and white matter according to precision health analysis done by Neurazon Canada. The child was assessed in person and further analysis is required.

Recommended Plan:

- 1) Development Protocol for the information processing
 - For 4 months then we reevaluate the child, preferably in person
 - Reevaluate the plan and establish a baseline
 - Continue with the intervention plan

- 2) Recommended tests:

- **Neuronal Growth Factors Absorption Analysis**

Hair sample

Estimated result time: ~**2 months business days**

Aim: Evaluate nutritional and neurological absorption effectiveness

Repeat every 6–12 months as needed

- **Functional Urine Analysis – Neurazon (Canada)**

A detailed analysis of metabolic and neurological pathways

Sample Type: Urine

Timeline: ~3 months business days for results

Repeated every 6–12 months
