ADDITIONAL INFORMATION

- A revaluation is needed to reassess the development on the Ai
- Start the second step of the protocol after three months
- This assessment was developed, and its performance was validated, by the Ai model of NEURAZON and according to the findings in the report attached. The US Food and Drug Administration (FDA) has determined that clearance or approval of this method is not necessary and thus neither have been obtained. This test has been developed for research purposes. All test results are reviewed, interpreted and reported by our scientific experts.
- The provided recommendations include safe, non-drug, and natural treatments that are not a substitute for rehabilitation and training sessions. These recommendations should be followed under the supervision of a specialist. Improvement depends on the child, the underlying causes, and their response, with recommendations adjusted based on periodic tests and evaluations every three months. If any allergic symptoms appear, treatment should be stopped immediately, and the specialist should be informed to adjust the treatment plan.
- This assessment is not a substitute for a medical assessment by a healthcare professional at a medical clinic. Please note, that this plan has been designed by our team of scientists, but we advise you to contact a physician as well to have a more holistic approach

Assessment: The child has down syndrome with Information processing and developmental. But the child has cognitive skills suitable for his age but slower in information processing. The child also has different autoimmunity conditions (some resolved) such as vitiligo and previously hypothyroidism indicating a biological component. The child needs further analyses.

Recommended Plan:

- 1) Development Protocol for the information processing
 - For 4 months then we reevaluate the child, preferably in person
 - Reevaluate the plan and establish a baseline
 - Continue with the intervention plan
- 2) Recommended tests on regular basis:
 - Recommended through Canada: Precision Health Analysis – Neurazon (Canada)
A more detailed analysis of the causes
Saliva sample
4 months business days to get the results
Done once
 - Recommended through Canada: Gut Intolerance Analysis – Neurazon (Canada)
A more detailed analysis of the absorption
Hair sample
2 months business days to get the results
Repeated 6-12 months
- 3) Recommended Therapy:
 - Plasticity therapy (intensive)
