

Homeopathy Plan - General Step

2nd Step

Notes:

- This is second step of the protocol which is considered a personalized step.
- These supplements are safe, natural and are not drugs or medicinal
- Another step for the personalized plan will be put in 4 months after a reassessment and according to the child improvement and tests
- Make sure you arrange a reassessment in advance to avoid waiting too long for an appointment
- In case, of any suspected side effects, please stop the natural supplements immediately and contact a physician directly

ADDITIONAL INFORMATION

- A revaluation is needed to reassess the development on the Ai
- Start the following step of the protocol after four months
- This assessment was developed, and its performance was validated, by the Ai model of NEURAZON and according to the findings in the report attached. The US Food and Drug Administration (FDA) has determined that clearance or approval of this method is not necessary and thus neither have been obtained. This test has been developed for research purposes. All test results are reviewed, interpreted and reported by our scientific experts.
- The provided recommendations include safe, non-drug, and natural treatments that are not a substitute for rehabilitation and training sessions. These recommendations should be followed under the supervision of a specialist. Improvement depends on the child, the underlying causes, and their response, with recommendations adjusted based on periodic tests and evaluations every three months. If any allergic symptoms appear, treatment should be stopped immediately, and the specialist should be informed to adjust the treatment plan.
- This assessment is not a substitute for a medical assessment by a healthcare professional at a medical clinic. Please note, that this plan has been designed by our team of scientists, but we advise you to contact a physician as well to have a more holistic approach

Homeopathy Plan - General Step

2nd Step

Assessment: The child improved greatly on the first protocol. Information Processing Delay and Developmental Delays leading to acquired features of autism but the child doesn't score as a case of autism instead a case of developmental delays linked to variants found in precision health analysis done externally by Neurazon.

Recommended Plan:

- 1) Development Non-chemical Protocol for the information processing
 - For 4 months then we reevaluate
 - Reevaluate the plan and establish a clear baseline and improvement projection
 - Continue with sessions and therapy
- 2) Recommended analysis:

Later stages: We might need further analysis according to test results, such as neuronal growth factors absorption analysis.

- 3) Recommended therapy:
plasticity rehabilitation therapy (intensive to start in 4 months in Jordan preferably but UAE as well is possible)
