

**Date of Assessment:** 25-06-2025

**Child's Name:** Zaid Maher Dyab

**Date of Birth:** 02-12-2019

**Age:** 66 months

**Gender:** Male

**Guardian:** Maher

---

### Assessment Summary:

Zaid was assessed on 25-06-2025. He presents with **information processing delays** and **developmental delays**, primarily as a result of **Down syndrome**. Despite these underlying challenges, **Zaid has shown significant improvement** after the initial intervention protocols. He does **not currently meet the criteria for autism**, and his developmental trajectory remains open for further progress. However, additional analysis is still recommended to further individualize his care.

---

### Recommended Plan:

#### 1. Development Protocol for Information Processing

- Continue the non-medicinal development protocol.
- Reassess after **4 months**, preferably in person.
- Reestablish the developmental baseline.
- Adjust and continue the intervention plan accordingly.

---

#### 2. Recommended Tests (through Neurazon – Canada):

- **Neuronal Growth Factors Absorption Analysis**
  - Focused on understanding nutrient and neurodevelopmental absorption
  - **Hair sample** required
  - Estimated turnaround: **2 months (business days)**
  - Recommended to repeat every **6–12 months**

**Disclaimer:** These tests are not performed at EICADD. Please refer to the external report and guidance provided by **Neurazon (Canada)**. These recommendations are optional and should be used to support the child's development.

### 3. Recommended Therapy after Determining the Causes:

- **Mitotherapy:** 2 light therapy (LT) sessions per week
- **Speech Therapy and Occupational Therapy:** Continue with current sessions as they have proven effective

#### Disclaimer:

This assessment is not a final medical diagnosis but a developmental evaluation based on current observations. The child is open to improvement, and the findings may change with progress and intervention. The recommended tests are external and provided through Neurazon (Canada). These are suggestions, not obligatory, and are intended to support a deeper understanding of the child's developmental profile. Please refer to the plan provided by Neurazon for further information. These tests are not conducted directly through our center.

#### Centers' Leading Staff:

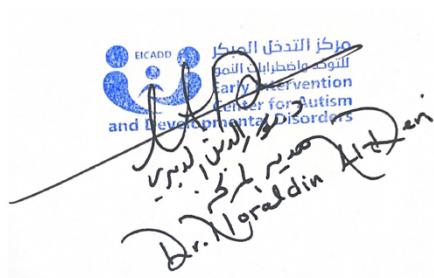

**Speech Therapist:** Ms. Amira Alomari

**Occupational Therapist:** Ms. Malak Jaber

**Psychologist and behaviour therapist (Ajman):** Ms. Asmaa Alshanawi

**EICADD Center Director**

**EICADD**

A handwritten signature in black ink, reading "Dr. Noraddin Al-Dani", is written over a circular stamp. The stamp contains the EICADD logo and the text "مركز التدخل المبكر للتوحد واضطرابات النمو Early Intervention Center for Autism and Developmental Disorders".
