

## Director's Report on Developmental Progress Assessment

**Date of Visit:** 01-10-2025

**Child's Name:** Ella Alaa Rashed

**Date of Birth:** 04-06-2019

**Age:** 6 years, 3 months

**Gender:** Male

**Guardian:** Alaa

---

### Assessment Overview:

Ella Alaa Rashed was assessed at our center on 01-10-2025. The evaluation revealed **information processing delays** and **global developmental delays** that are contributing to **intellectual developmental delay features** and **acquired features of autism**. These findings highlight the importance of a structured developmental plan and further analyses to guide intervention.

---

### Recommended Plan:

#### 1) Development Protocol for Information Processing

- Implement the protocol for **4 months**, followed by an in-person reassessment.
- Establish a new baseline at the time of reassessment to track progress.
- Continue with the intervention plan to support ongoing development.

#### 2) Recommended Tests through Neurazon (Canada)

The recommended tests are conducted through **Neurazon (Canada)**, a **bioinformatics company** **partnered with certified laboratories worldwide**. These tests are intended to provide deeper insights into the child's developmental profile and are **recommendations, not obligatory**, and are **not conducted directly through EICADD Center**.

#### 3) Recommended Therapy:

- Continue with **rehabilitation therapy** as previously planned to address developmental and processing delays.
-

**Disclaimer:**

This assessment is **not a final diagnosis** but a developmental evaluation based on current observations. The child is open to improvement, and findings may change with progress and intervention.

*This report is valid for 4 months from the date of assessment.*
